The median single family home price in BREA this week is \$488,999.

Inventory has been tightening and days-on-market decreasing recently. The Market Action Index has been basically flat, not providing strong indication for market conditions.

PRICE

Prices continue their climb again this week. We're a long way from the market's price high-point so watch the Market Action Index as an indicator of how long this trend will last.

SUPPLY AND DEMAND

Local conditions are currently quite strongly in the Buyer's Market zone (below 30). The 90-day Market Action Index stands at 17. With several months of inventory available at the current sales rate, buyers should find ample choice.

QUARTILES

Investigate the market in quartiles—where each quartile is 25% of the homes listed.

Most expensive 25% of homes

Upper-middle 25% of homes

Lower-middle 25% of homes

Least expensive 25% of homes

The Market Action Index answers the question "How's the Market?" by measuring the current rate of sale versus the amount of the inventory.

Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer.
